Be Sure to Vote

It is the habit of millions of Americans year after year to cast their ballots for Sears. Their catalog orders are their votes—and we think our good merchandise and money-saving prices will continue to win the support of the public. We hope you will elect to use this catalog frequently; in fact, every time you buy.

Be Sure to Vote

Choosing Sears catalog over other places to buy is a habit fostered by the rights we enjoy in our free American society. Those rights give us a free choice in "electing" places where we will live, worship, work . . . and buy.

Be Sure to Vote

While we are talking about elections, let us remember that this fall we again name those to whom powers of government will be entrusted. The way to keep ours a free society is for all of us to participate in elections. Be sure you go to the polls. It is your privilege. It is your obligation.

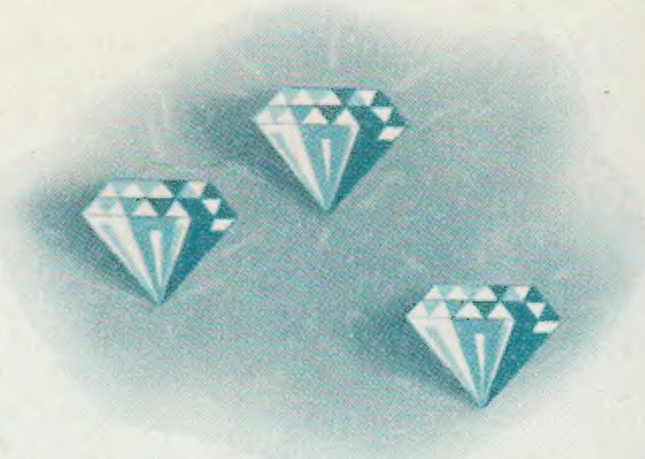
Learning how to

How many of us are experts on Carpet?

Take various qualities of carpeting shown on pages 800-802 to 810 of this catalog. Except for designs, several may look pretty much alike to you, just as they would in stores. But Sears catalogs give you rug facts like these to help you judge values:—You find that our carpets range from 4,536 to 12,288 tufts of yarn per sq. ft. Some are heavier, more tightly woven than others. Each has special construction features that are explained to you clearly. This information is far more complete than most rug sales people could furnish. So it's easy to decide for yourself which carpeting is best for your needs.



Which Diamond is worth 36% more?

We could take three different ½-carat diamonds from pages 960-962 and 963 of this book and lay them before you. Few people could distinguish the most costly from the least expensive of the three stones. That's why it is so important that you look to someone with definite standards of quality when buying diamonds. Sears catalog helps you make up your own mind by describing how our diamonds are graded like this: *FINE*—radiantly beautiful and equal to best quality sold in many stores. *FINER*—absolutely no flaws visible to the naked eye.

How do you know which Paint to use?

Whether you are painting a house or just refinishing an old kitchen chair, one thing is certain. The results can be very sad if you haven't used exactly the right paint. You'll see why by turning to pages 1255 to 1271 of this catalog. Each paint item in that section is described by more than a label like "Enamel" or "House Paint." We tell you the kinds of materials these paints are intended to be used on. We tell you exactly what the paint does. You learn how many square feet you can expect certain quantities of each paint to cover. You end up by knowing pretty well how much of what kind of paint you should buy for any job.

Which Work Shoe should you buy?

Look at pages 471 to 482, the work shoe section of this catalog. There you will find facts like these in the reading matter describing various shoes. "Double-tanned to repel soil and barnyard acids." . . . . "cork cushion insole from heel to toe" . . . . "frozen in solid ice for 70 hours, yet dried out as soft, limber as before."

Could you tell all that just by looking at a pair of shoes? Without such facts, how can you choose shoes that will fill your needs best? Sears catalogs point out hidden features that make considerable difference in the cost of shoes. These facts tell you exactly what you get for your money.

spend money wisely is harder than learning how to make it..

SOME DAY, somewhere, some school will make history by teaching "How to Spend Money." As it stands now, you can study to be a professional man, a farmer, merchant or mechanic, to name just a few. This helps you earn money for yourself and your family.

But what about learning how best to spend the money you can learn to earn? Who teaches you the importance of thread count in buying sheets? Where can you learn about rug construction and materials before you spend money on new floor coverings?

To get your money's worth, you need *facts* about things you buy. Here at Sears, for example, merchandise that gives our customers such outstanding value is bought by trained, professional buyers. They get all the facts before they spend a penny for goods offered to you in our catalogs.

Such facts are available to you, too, so you can be sure you are getting the most for your money. You have that information right in your hands now, in this Sears catalog. We tell you here the things our buyers have learned about our goods, things that will help you buy better.

Letters by the thousands come to us from men and women all over America who say the same thing in many different ways.

A woman in Maine thanked us for the "education" she got from Sears catalogs. The head of a family in Ohio voiced his appreciation of the many ways Sears books gave him facts about merchandise—facts that helped him buy better. From an Oregon school teacher came a letter telling us how she used our catalogs in her home economics classes.

The proof keeps coming in. It all points the same way. It says *anyone* can learn to spend money more wisely with the help of information like that illustrated on the page to the left. Sears catalogs are chock-full of such buying help. Use this help—and our books—every time you think of buying anything for family, home or car.

This you can't buy for your children

Don't you often wish you had known more about values when you started buying your own clothes, home furnishings, tools, appliances? There's a simple way to help your children get such training *now*, while they learn easily.

Just let a youngster be your family's purchasing agent. Start right in next time you need something fairly simple. Have your son or daughter look up the item in this catalog. Let them read Sears descriptions and compare different qualities we offer. Get them to shop in stores for this article, comparing quality, features —and prices. Finally, let them make their own decision as to where to buy.

Note that we suggest you have the children see what they can find in other stores. This is because we believe such training in buying must be complete to be of value. The youngsters should learn to recognize a "good buy" wherever they may find it.

Remember, only *you* can give your children a chance to solve buying problems connected with daily living. You can't *buy* this training for them.

NURSMATIC . . SELF-REGULATING BABY NURSER

Nursmatic solves most bottle-feeding problems, because it actually operates on nature's own nursing principle. The secret is the Insta-Valve, a tiny stainless steel valve . . . inserted in the nipple . . . which controls the flow of formula and regulates feeding in measured amounts.

Nursmatic reduces air swallowing, the most common cause of colic in babies. Lessens regurgitation, "spitting up," "fighting" nipple, as well as the need for "bubbling" baby. Eliminates collapsed nipples. There is no longer any need to pierce nipples when used with ordinary formula . . . assuring you of greater sanitation for the baby and less work for yourself.

Nursmatic is simple, safe, and sanitary. Terminal sterilization (sterilizing formula and equipment at same time) may be used, if desired.

Nursmatic nurser includes: Davol nipple, Insta-Valve, blue plastic collar and slip-on hood. Bottle of Diamond-Grip Duraglas, designed to withstand all thermal shock, with easy-to-read blue ounce-markings.

Nursmatic parts are available in complete sets, and also may be ordered individually from the listings below.

POPULAR EVENFLO ALL-IN-ONE BABY NURSER

Evenflo, the original all-in-one nurser, "breathes as it feeds" to give the utmost in feeding comfort. The patented Evenflo Nipple has twin air valves which breathe air into bottle to relieve vacuum and prevent nipple collapse. These self-regulating air valves allow baby to nurse steadily and in comfort and prevent nursing colic.

Evenflo's plastic screw-on cap sanitarily seals nipple downward in the bottle, with the formula, making it leakproof for storage or for carrying in a travel bag. The wide-mouth bottle is easy to fill and clean, and is available in your choice of regular or Pyrex brand heat-resistant glass.

A complete Evenflo Nurser includes a bottle, nipple, cap and sealing disc.

8 G 2293—40-PIECE EVENFLO LAYETTE FEEDING SET includes: 8 complete nursing units (six 8-oz. for round-the-clock feeding, and two 4-oz. for orange juice or water , 3 extra nipples, 2 extra discs and caps, and one 12-oz. package Evenflo Brushless Baby Bottle Cleanser. Boxed. Postpaid. (Shipping weight 4 pounds 8 ounces).....$3.00

2-PIECE WINTERWEIGHT SUITS

Easy-to-launder styles in warm medium or heavier weight knit cotton . . all low priced

All the action-free convenience of 2-piece styling combined with the warmth of closely knit cotton. You get extra warmth and long wear without extra bulk and bothersome bunching. Gently clinging rib knit stretches with body-movement—actually fits like a glove to make sure low temperatures don't penetrate. Body tested proportioned sizes assure proper fit, maximum comfort. Easy to launder, never need ironing.

Your choice of medium weight or heavier weight cotton. Medium-weight is warmly knit for adequate cold weather comfort. Heavier weight is closely knit of heavier yarns for those desiring added winter protection.

[A] SHORT SLEEVE SHIRT has rib knit collarette, fits snugly around neck and protects chest. Firmly hemmed sleeves and bottom won't ravel.

[B] MID-LENGTH SHORTS have all-around elastic waistband of "live" rubber. Strong saddle-type crotch won't bind or irritate. Fly front.

[C] LONG SLEEVE SHIRT (in heavier weight cotton only) has wrist-hugging ribbed cuffs. Close-fitting, ribbed neck and hemmed bottom.

GOOD, CLEAN BOOKS
with honest-to-goodness story value

How often have you wished for a well-rounded library of great books—clean-cut, inspiring novels; books by important people about important people; reading that instructs and educates and entertains? Perhaps you decided that such a library was far beyond your reach.

Now, through membership in Peoples Book Club you may start at once to build a home library of books worth owning—in matched bindings—and be able to do it quickly and economically.

Peoples Book Club was formed to fill what Sears believes is a basic desire on the part of most Americans to obtain good, clean, wholesome, entertaining books—and get them at a price to suit the average budget.

So, to help you get started at once on the library of your dreams and to introduce you to the many benefits and privileges of belonging to Sears "family" book club, we make the following money-saving offer:

Don't miss this $8.75 value—3 wonderful books for only $1.87

Accept the three outstanding books pictured and described on this page—LITTLE BRITCHES, MAN OF THE FAMILY, TIME TO REMEMBER—all of them for only $1.87 (plus 13c for postage and handling) with membership in Peoples Book Club.

QUILTED COTTON . . REVERSIBLE

- Quilted reversible weskit
- Quilted reversible swing skirt
- White broadcloth blouse

$5.98 COMPLETE OUTFIT

GIRLS' SIZES 7 to 14

Here are a weskit, skirt and blouse that make 6 different outfits (see photograph and sketches). They're the "separates" a school girl loves. They're the "change-abouts" that solve the "*What'll I wear*" problem. They're a wonderful boost for your budget!

Weskit and Swing Skirt are red multicolor plaid on one side, bright navy blue on the other. They're quilted on both sides with white stitching, bound in bright navy. Both are completely reversible. Weskit has buttons and buttonholes on both sides. Swing skirt has reversible zipper. Both the plaid and the solid color are fine count cottons. Hand wash them separately.

Blouse is white cotton broadcloth . . well made, sturdy and washable.

Economy WATER-TYPE Machineless Home Wave

Ann Barton GLOW Machineless Home Permanent, the economy water-type wave with genuine professional equipment. Use this set right in your own home, no machines needed. The waves are set by heat and last until hair grows out. The equipment, heat units and wave solution are the same kind as those used by professional operators in the finest beauty salons.

With Ann Barton *Glow* you can have a complete machineless wave in just about 2 hours, side and end curls in just 30 minutes, using the 24-curler set.

Ann Barton *Glow* provides a complete permanent by putting up just 24 curls. With 6 curlers, use each 4 times. The 24-curler set saves time, of course. Ann Barton *Glow* Wave lotion is scientifically blended for fine, medium, and coarse hair. It contains lanolin and other fine oils to help keep your hair soft and natural looking. No neutralizers or rinses needed. The heat units create just enough heat to give a soft, lasting wave without oversteaming. Use equipment over and over for years. Buy refill for each future wave.

CH HOSIERY SHOULD I BUY? Time and again you've seen ads like this: auge, 79c; 51-gauge, 89c; 51-gauge, $1.10; 51-gauge, $1.29; 51-gauge, .. etc. Have you, too, been confused as to which hose you should ? How can you determine which of these 51-gauge nylons is the t? or the finest quality?

usly you can't. Yet many women buy hosiery by gauge alone, believ- at the higher the gauge, the sheerer, finer the hose.

is not true. *Gauge alone* merely indicates the number of stitches on knitting machine.

s method of classifying hosiery sheerness by descriptive names is indication of their weight, sheerness.

A SHEERS . . sheerest weight you can buy; dressiest, most glamorous **TY SHEERS** . . a practical weight, sheer enough for all-purpose wear **VICE WEIGHTS** . . just what the name implies; heaviest, most durable **CIALTIES** . . runproof, run-resistant; sheer looks coupled with long wear

Good ... KNIT RAYONS

Better ... ACETATE TRICOT

Circular knit rayons. *Bargain priced* . . . yet knit in an unusually sturdy interlocking stitch that is firm-textured, good-wearing. Order now—buy larger quantities, save more.

Runproof acetate tricot . . . fine 2-bar tricot is *double-lockstitched* so it just can't run. Wears longer than our good quality because it's runproof and firmer textured. Acetate is the *beauty fiber* that drapes softly, feels petal-smooth. It dries more quickly than rayon, shrinks less and tends to shed wrinkles

A, B and C in regular sizes are packaged .. come to you daisy-fresh

Double fabric crotch . . it gives extra strength and wear

Smooth-fitting elastic waist .. covered in soft, comfortable knit rayon

Fine acetate! Keep their good shape, fine fit through many washings

Double fabric crotch is firmly set in . . . a *long wear* feature

Fine, springy elastic at waist gives you snug comfortable fit

This *runproof* acetate tricot gives long wear, yet is very *soft, smooth*

HOW TO MEASURE FOR SEARS BRAS, CORSETRY

BRAS

FOR BETTER FIT, MEASURE OVER PRESENT BRA

1. Determine your Bust Type

Your bust type is determined by the difference between measurements taken over your chest wall (*above the breasts*—see top tape on figure at left) and the fullest part of your bust (see lower tape on figure at left). *Important—bust type is a matter of build, not of age. Measure—do not guess.*

Extra Small (AA cup)—Bust generally measures *smaller* than your chest wall.

Small (A cup)—Bust measures *approximately the same* as your chest wall.

Medium (B cup)—Bust measures up to *one inch larger* than your chest wall.

Large (C cup)—Bust measures *1 to 1½ inches larger* than your chest wall.

Extra-Large (D cup)—Bust measures *more than 1½ inches larger* than chest wall.

EXAMPLES

Chest Size	Bust Size	Correct Bra Size
36 in.	35½ in.	36, AA cup
36 in.	36 in.	36, A cup
36 in.	36½ in.	36, B cup
36 in.	37 in.	36, C cup
36 in.	38 in.	36, D cup

When fitting your Bra, be sure to adjust shoulder straps to proper length.

2. Determine your Bra Size

Your bra size is determined by your chest wall measurement.
EXAMPLE: If chest wall measures 36 in., order bra size 36.
If chest wall measure is not even, order bra size nearest that measure.
EXAMPLES: If chest wall measures less than 35 in., order bra size 34.
If chest wall measures more than 35 in., order bra size 36.
EXCEPTION: When ordering a longline bra, if waist is less than 5 inches smaller than chest wall (4, 3 or 2 in.), order the next larger bra size than that indicated by your chest wall measurement.

What type of Bra should I wear?

Wear Bust Pads or a Padded Bra if you desire additional bustline fullness. With Beauty Build-ups you can achieve almost any degree of accentuation—and the secret is yours alone when you order by mail.

Wear a Bandeau if you have a small, firm bust which requires little support.

Wear a Bandette if you have a fuller bustline. The band under bust-cups anchors bra, gives additional uplift and support.

Wear a Longline Bra if you have a roll of flesh at midriff when fitted in a waistline garment and short bra. The wide band of a longline bra controls diaphragm and gives you a trim, "all-in-one" look.

Wear a Gale Bra if you have a "hard-to-fit," problem bust. Scientifically designed to give gentle adjustable back support PLUS firm, comfortable uplift.

Maternity and Nursing Bras are sold on Maternity Corsetry page.

CORSETRY

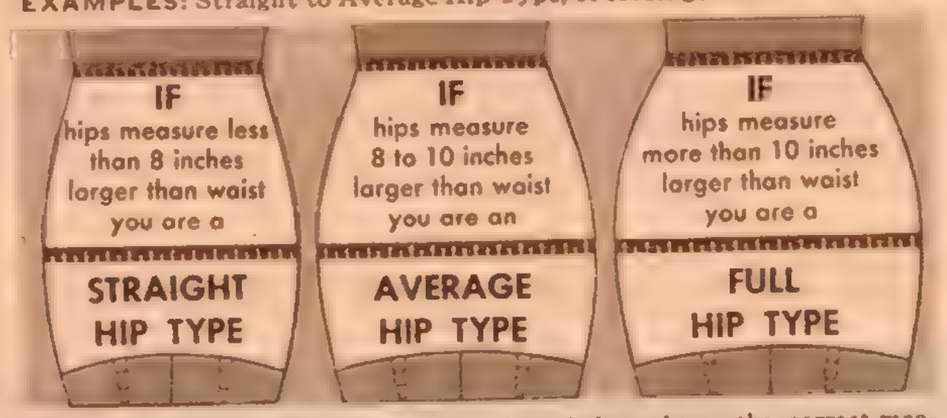
FOR BETTER FIT, MEASURE OVER FOUNDATION

1. Determine your Size

BUST—Measure over shoulder blades around fullest part of bust.
WAIST—Measure waist at narrowest part. (Remove your dress belt).
HIPS—Measure around fullest part of hips.
LENGTH—Measure at your side, from waist down to the spot you want your garment to end. NOTE: While we do not request length measures with ordering information, it is important that you check it against the length of the garment you wish to order.

2. Determine your Hip Type

The difference between your hip and waist measurements determines your hip type. There are 3 basic hip types, as shown below. However, many styles in the catalog are designed for more than one hip type.
EXAMPLES: Straight to Average Hip Type, or Average to Full Hip Type.



Order a Waistline Style by Waist Size and Hip Type
1) Locate your waist measure on chart at right. *This is the size garment you should order.*
2) Following this line across, find your hip measure (and proper hip type) in one of the columns at the right.

Order an All-In-One by Bust Size and Hip Type
1) Follow the 2 steps listed above to determine your hip type.
2) Then find the bust measure listed on the same line of the chart as your waist and hip measures. If it corresponds with your own, or if bust is *slightly smaller* than this measure, this is the size all-in-one you should order.

EXCEPTION

If your bust is *more than 2 in. larger* than the bust size opposite your waist and hip measures in the chart, order your all-in-one thus:
1) Find your bust measure (and garment size) on chart.
2) Following this line across, find your hip measure (and hip type). In this instance, since your bust is large in proportion to your waist, you may have to dart the waistline of your all-in-one.

The chart below shows the correct measures for the 3 basic hip types.

IMPORTANT

When your bust, waist or hip measures do *not* correspond with those for any of the 3 hip types below, we recommend that you order a waistline garment and a longline bra. (You may order an all-in-one if you wish, but additional darts may be necessary at bust or waist.)

What type of Garment should I wear?

Wear a Waistline Garment with Short Bra (Bandeau or Bandette) if you want control only from waist down.

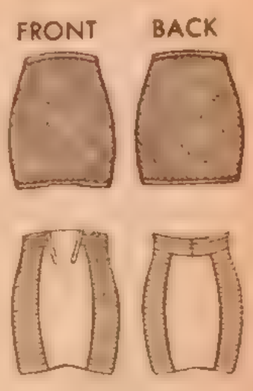
Wear a Waistline Garment with a Longline Bra if you want smooth, overall control when the bust, waist or hip measurements are not in proportion. (See chart at left, under ***Determine your Hip Type.***)

Wear an All-in-One if you want smooth, overall control when bust, waist and hip measurements are in proportion. (See chart under ***Determine your Hip Type.***)

How much control should my garment give?

All these garments in waistline and all-in-one styles

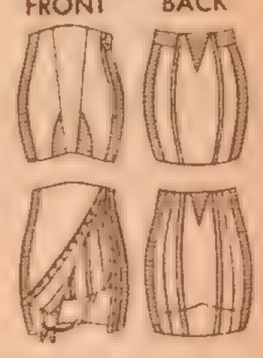
1. Garments with Little or No Boning



Wear a Knit Elastic Garment for gentle support, complete freedom of action. These knit elastics are generally two-way stretch. Often they have novelty textures, such as Power Net or Lace Elastics. Some garments have panels inserted or laid over elastic for added control.

Wear a Tu-Way Control Garment if you want moderate figure control with light boning around top. Woven cross-stretch elastic side sections are seamed to an up-and-down stretch elastic back panel. Front may be cloth or elastic. This gives more control over abdomen, hips and/or back.

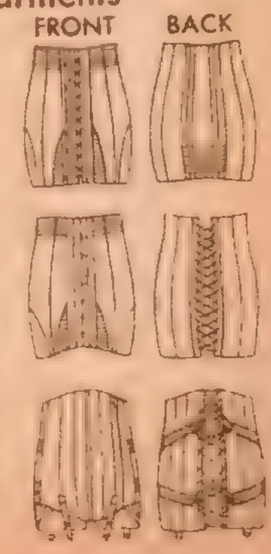
2. More Firmly Boned Garments



Wear a Garment with Boning Front and Back if you want firm *overall* control. This boning trims the figure with exaggerated front and back curves . . . redistributes the flesh to give smooth, firm lines, added abdominal support.

Wear a Belted Garment if you want even more support for a large or pendulous abdomen. The double front gives added uplift—and by relieving back strain, it actually helps you stand straighter.

3. Boned and Laced Garments



Wear a boned and laced garment if you want extra firm support without the aid of an inner belt, PLUS more adjustability than an ordinary garment can provide.

Wear a Front Lacer if your abdomen is large in proportion to your hips.

Wear a Back Lacer if your hips are large in proportion to your waist.

Wear a Gale Scientific Support if you require specialized figure control or support for the following: sway back, backaches caused by sacroiliac or lumbosacral conditions; a sagging abdomen; a rupture; or dropped organs (ptosis). They are also beneficial for general wear, during and after pregnancy, and after an abdominal operation.

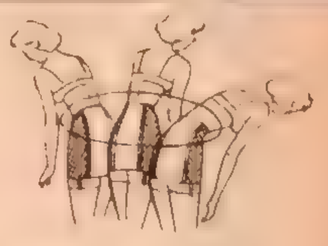
"BREATHING WAIST" GIRDLES

Our best quality Cordtex styles—in your choice of hip control



Gentle Hip Control — Each side has one piece of two-way stretch leno elastic **$9.98**

Extra Hip Control — Each side has two panels of two-way stretch elastic, with up-and-down stretch insert between **$10.45**

Most comfortable "Hi-Waist" girdles we know of—and why not? You can walk, run, stretch or bend without a bit of binding. The 3-inch waistband is made of *special cross-stretch elastic* that fits smooth, yet instantly adjusts to every body movement. We know of no other garments that offer you this superb feature. But look at all the other fine qualities these girdles offer:

1) *All nylon*—for longer wear, less care . . . and less bulk under trim clothes
2) *Exclusive Cordtex inserts* trim waist, keep "Breathing Waist" in place
3) *"Breathing Waist" is woven on*, not stitched on as in other garments
4) *Exclusive Sta-tite elastic on all 6 garters* wears 10 times longer than ordinary elastic because needle can't cut rubber as elastic is stitched on
5) *Tu-Way control*—no-stretch nylon taffeta front has 2 bones to firm tummy, sides have full-length panels of two-way stretch leno (open weave) elastic, and up-and-down stretch nylon satin elastic back keeps profile narrow
6) *Long side zipper closings are concealed*—a really luxurious feature
7) *Choice of hip control* . . . both are popular styles—see the difference below

Gentle Hip Control Girdle

One of our best selling Cordtex styles. It's easy to see why, too—just look at all the features above! Sides are made entirely of two-way stretch nylon leno elastic that snugs hips gently, firmly to trimmer lines. Fits 15½ in. waist down on figure.

Average Hip Type. Fits hips 8 to 11 in. larger than waist. *Waist sizes* 26, 27, 28, 29, 30, 31, 32, 33, 34 in. *State waist, hip size.* Shpg. wt. 1 lb. 2 oz.

Cotton or Acetate Satin **$1.49**

Superb value—a newly inspired bra at a down-to-earth price! If YOU want feather-light, buoyant kind of uplift, choose the new Eclipse Cordtex bra. Marvelous *crescent-shaped Cordtex inserts* in bust-cups arch upward like a new moon mold you to dazzling new proportions. But that's not all! *Lined bust-cups are reinforced* with countless swirling stitches that give permanently firm Cordtex new powers of persuasion. Horizontal bust-cup seams assure maximum accentuation. Diaphragm band is wide to smooth away every bulge, reinforced so it can't curl up. Forked self-fabric straps and wide elastic back closing adjust. Choose now from cotton or acetate satin. *State bust size.* Shpg. wt. 4 oz.

Beauty Build-ups

Give new poise, new flattery

Enhance "in-between" or underdeveloped bustlines

Lowest price we know of for a Bra with built-in foam rubber padding A really sensational value!

Priced as low as bras with removable pads, yet this padding is *built right into* 2-section bust-cups—for more secure fit, added comfort, more figure flattery.

Imagine! A bra with built-in foam rubber padding —for less than you'd pay for most regular bras!

Looks and feels just like any other bra on the outside and inside—but what a difference it makes in your silhouette. Styled with waffle-stitched underbust. Self-fabric straps, elastic back closing adjust.

If you do not fill out an ordinary "A" cup, order an "A" cup in this bra. If you are an average "A" cup or slight "B" cup type and want a fuller bustline, order this bra in "B" cup. Shpg. wt. 4 oz.

IN OUR BIG GENERAL CATALOG

SOFTIES, our own latex girdle, was developed to meet Sears standards of workmanship and wearability, after considerable research and development. Efficient production and buying enables Sears to sell Softies at these extremely reasonable prices.

What are Softies? Softies are made of lively latex that stretches for maximum freedom. Yet control you smoothly, slimly because they're boneless, seamless, petal smooth. Perforated for well ventilated comfort. Cotton fleece lining is "soft as a rose petal" . . helps avoid chafing.

What can Softies do for you? If you've never experienced the remarkable control of latex you'll be delighted with the way a Softie transforms your silhouette. Absorbent, velvety cotton fleece surface is amazingly soft against your skin. Specially shaped back garters avoid cutting in.

Do Softies come in your size? Yes, there's a Softie garment for all figure types . . . all properly proportioned for length, also. And better yet—every Softie girdle is available *at the same low price. There's no extra charge* for extra large sizes.

SOFTIES are illustrated and described on opposite page

Have you moved

since sending us your last order

If you have moved or changed your address since sending your last order, please let us know. Be sure to tell us both your NEW ADDRESS and your OLD ADDRESS.

This is IMPORTANT because we send our Big Catalogs and our supplementary catalogs without request to customers who buy regularly from our catalogs—by mail, by phone or through one of our catalog sales offices. We want to be sure that you as a regular customer get your catalogs without delay.

When you move and give us only your new address with your order, a new card is made out in your name and you are listed as a new customer. However, if you give us BOTH your OLD and NEW addresses when you move or change your address, we can credit you with orders from the old address as well as the new. Thus, if you are a regular customer you will be sure of getting your catalogs.

Many of our customers move from one state to another or from one city to another. Others merely move to another part of the city or county. *In any case, whenever you change your address, please let us know. We can serve you better if you do.*

We need your OLD ADDRESS so we can credit you with all your previous orders sent from that address.

We want your NEW ADDRESS so that you as a regular customer will get your catalog without delay.

If you have moved and are sending us your first order from your NEW ADDRESS, fill in the "IF YOU HAVE MOVED" space on our order blank. OR fill in the convenient coupon at the bottom of page 1442 of this catalog and mail to the Sears mail order house nearest you. Sears mail order houses are located at Chicago, Philadelphia, Boston, Kansas City, Minneapolis, Atlanta, Greensboro, Memphis, Dallas, Seattle and Los Angeles.

GET CORRECTLY-FITTED SHOES . . USE SEARS 4-POINT MEASURING PLAN

1 Have someone else hold an ordinary kitchen knife straight up and down at the tip of your longest toe, and make a mark with a pencil along the outside edge of the point of the knife. Do not stand while you are measuring, as this will spread foot.

2 Have knife blade moved to the joint of the inside of the foot (widest part), as shown in illustration to the left, and again make a mark with the pencil along the outside edge of the blade. For additional details on shoe ordering see page 1453.

3 Next, have the knife blade placed at back of the heel, as shown in illustration to the left, and make another mark along the outside edge of the blade. Be sure that the knife is held straight up and down.

4 Have knife blade placed at widest part of the outside of your foot. This gives us your exact foot measurement, so do not send us pencil outlines of your foot. Enclose the paper with your order.

SHIPPING INFORMATION

PARCEL POST SHIPMENTS: On all articles for which you pay shipping charges, the shipping weight is given in the catalog description. Enter the total shipping weight for each article in the shipping weight column of the order blank. Add the pounds and ounces, then change ounces to full pounds (16 ounces equals 1 pound), and enter total weight in pounds. The postoffice counts fractions of a pound as a full pound and charges postage accordingly. For example: If your order totals 9 pounds and 34 ounces, allow postage for 12 pounds (34 ounces equals 2 pounds and 2 ounces, therefore 2 pounds 2 ounces plus 9 pounds equals 11 pounds 2 ounces).

Refer to postage chart above. If you live in Zone 3 or within 151 to 300 miles from Sears Mail Order House, the amount of postage to allow for 12 pounds is 56c. *If you send more money than is actually needed to ship your order, we will refund every penny not used.*

Complete ordering information can be found on the green pages in this Catalog.

FREIGHT OR EXPRESS SHIPMENTS: It is not necessary to send money to pay for freight and express shipping charges in advance. You pay shipping charges to agent at your freight station when goods are received. However, if there is *no agent* at your freight or express station, please include additional money with your order to prepay shipping charges. While express is faster, freight is the most economical way to ship heavy, bulky merchandise. Before marking method of shipment on order blank, compare freight and express rates shown on green pages of this catalog.

TRUCK SHIPMENTS:—All Trucking Companies do not make deliveries to a home address. This can be verified by checking with your Trucking Company's local agent. If shipment is to be made to your home and you live outside of town, also give your **highway route number and some identifying landmarks.** It is not necessary to send money to pay for truck transportation charges. You pay shipping charges to truck driver when goods are received.

HOW TO SEND MONEY

The best way to send money is by postoffice money order, express money order, or by bank draft or check. The mail carrier will be glad to buy a postoffice money order for you if you live on a rural route. It is better not to send coins, paper money or postage stamps with orders, but should it be necessary, be sure to send your order by registered mail.

SEARS GUARANTEE

- *To Save You Money*
- *To Deliver All Merchandise Safely*
- *To Satisfy You Perfectly*

We guarantee that every article in our catalogs is honestly described and illustrated. We guarantee that any article purchased from us will give you the service you have a right to expect. If for any reason whatever you are not satisfied with any article purchased from us, we want you to return it to us at our expense. We will then exchange it for exactly what you want, or will return your money, including any transportation charges you have paid.

You Walk on Air . .

Cushioned

Like a magic carpet . . a heel-to-toe cushion, filled with thousands of tiny air bubbles, seems to float you along as you walk. It provides an extra layer of protection between you and the pavement . . pillows each step, absorbs "sidewalk shock", reduces fatigue

LARGE OR SMALL . .
WE GUARANTEE TO FIT

Whatever your size, Cushioned Gold Bonds assure correctness of fit for any normal foot. For example, styles 67 G 4503 and 67 G 4504 on facing page come in widths A to EEE, sizes that range up to 14. Actually a total of 71 sizes! Check your shoe size first . . . see page 1435.

Here's why you'll like Cushioned Gold Bonds . .

Take your new pair of Cushioned Gold Bonds out of the box. The first glance tells you how good looking they are . . correctly, handsomely styled for business and dress wear.

Place your hand inside the shoe, press down on heel-to-toe innersole. The buoyancy you feel is cushion giving 'way to even the slightest pressure. Now release—it springs back!

Slip them on your feet. Stretch your toes. Notice the foot-flexing freedom you have. But heel is narrow at top so that shoe won't slip or gap in back. Extra depth allows room for cushion.

Now stand up. Feel your feet s down into the cushion innersole. T a few steps . . ah, what luxurious c fort! No fatiguing jars or jolts every step is padded.

Walk about on a hardwood or cement floor—it's just like walking on a thick carpet. Compare this day-long *luxury walking* with *ordinary* walking —what a big difference!

Take a close second look at your new Gold Bond shoes. Observe the fine, selected leather uppers, the careful stitching and detailing, the superior styling throughout.

Now check the price—it's the lowest since Spring, 1951. We invite you to compare—because we know that only at Sears can you buy *these* shoes at *this* money-saving price!

Foot comfort guaranteed! Orde pair of Cushioned Gold Bonds, - them 10 days. If you're not convi they're your top shoe value any- return them for full refund of m

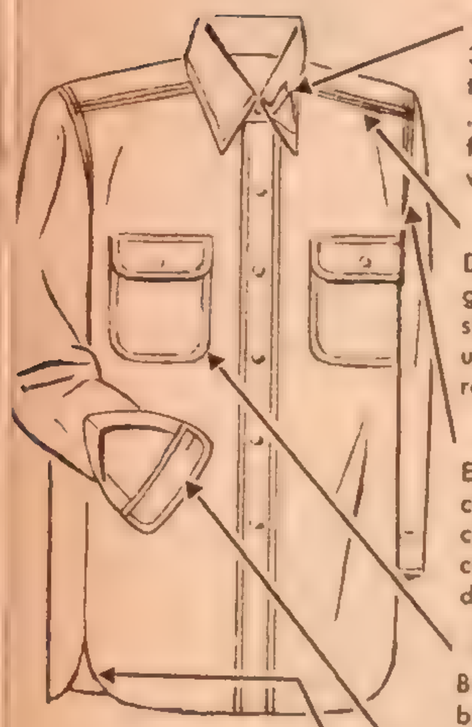
Hercules wear-packed Work Shirts

Give you extra comfort . . extra wear and extra value for your money

All Sanforized for lasting fit



Dress-type innerlined collar
3 layers of fabric stitched together. Collar holds shape . . looks neat and trim. Resists fraying to give you longer wear and greater comfort.

Strongly stitched seams
Double fabric shoulder yoke gives long wear. Closely stitched seams stand up longer under stress and strain of rough everyday jobs.

Full cut for extra room
Extra roomy arm-holes and chest means you have greater comfort because they won't cramp your action and freedom while working.

Big firmly stitched pockets
Button through pockets or button-down flap pockets are sturdy and roomy. Made to look neat and wear long.

One-piece sleeve facings
Sleeve facings are made in one continuous piece to keep them from ripping or tearing easily . . . take longer wear.

A Size for every build
Sears Graduated Patterns proportion all measurements to each size—in neck, chest, armholes and sleeves for easy fit.

Long tails with side gussets
Tuck deep in your trousers . . and stay there. Set-in gussets at sides keep side seams from ripping. Means more on-the-job wear.

MEASURE AND BE SURE. FOR SHIRTS: Measure around you neck at collar band with tape . . not too tightly. Number of inches is your size. For best results, have someone else measure you.

33 G 2545–Black
33 G 2546–Medium brown Pair **$5.50**

ABOUT LEATHER AND LININGS. **Capeskin: imported South African** is best. Butter-soft and supple with tight close grain for durability, long wear.
Domestic cape: extremely pliable and long wearing.
Deerskin: more durable than cape; pebble grained.
Horsehide: very good looking, exceptionally pliable, yet tough. An excellent driving glove.
Pig-graining: makes leather more pliable and soft.
Fur lining: Soft Coney (rabbit fur) is best looking; heavy fleeced baby lambskin is the warmest.
Knit lining: 100% wool knit is warmest. Nylon is longest wearing. Rayon and cotton are best for moderately cold weather.

HOW TO MEASURE FOR GLOVE SIZES

New X-2* Treated Rayon Lad

It's Sensational! Wears TWICE as long as regular rayon

What "X-2" does to Rayon . .

"X-2" chemical makes a permanent change in the molecular structure of the rayon fiber itself. This gives your "X-2" treated rayon garments all the wonder qualities of lasting beauty, long wear and easy washability described at right.

• Greater Color fastness. "X-2" treated fibers absorb less moisture, so they do not become as soft as non-treated fibers when being washed. Color is less apt to rub off.

• Longer Wear "X-2" fibers wear conventional rayon fibers 2

• Machine Was You can wash your machine without worry!

Treated Rayon washes faster . . . dries faster . . . irons in one stroke!

- **Faster Drying.** Less water is absorbed, less water to dry out.
- **Less Shrinkage.** Unlike most rayon, "X-2" shrinks less than 2% no matter how washed.
- **Less Wrinkling.** "X-2" treated rayon is more resilient . . . less apt to wrinkle.
- **Easier Ironing.** High resilience means "one-stroke" ironing.
- **Permanent Beauty.** The "X-2" chemical preserves the "brand new" look and feel for the life of the garment in spite of repeated washings.
- **Perspiration Odor Reduced.** Perspiration evaporates faster—there is less odor.
- **Mildew Resistant.** "X-2" protects the fabric against mildew.
